

January 29, 2010

Ms. Sheli Lulkin, President
Association of Sheridan Road
Condo/Co-op Owners ("ASCO")
6101E North Sheridan Road #20B
Chicago, Illinois 60660

Re: **Notice of Opposition and Request for Statement**

Dear Ms. Lulkin:

During its January 28, 2010 Board Meeting, the East Point Condominium Association ("East Point"), which is a member of ASCO and upon a unanimous vote of its board members, authorized the presentation to ASCO of this Notice of Opposition and Request for Statement (this "Notice").

East Point hereby gives notice to and requests the following action by ASCO, as follows:

1. **Notice of Opposition:** East Point objects to any architectural, engineering or construction plans and activities of any party, entity or jurisdiction that calls for or implements the design, planning, development or funding for any creation, placement or extension of any roadways, islands, lagoons, parks or other landmasses adjacent to, in, on or under that portion of Lake Michigan that is in any manner east of the Edgewater and Rogers Park neighborhoods of Chicago, Illinois (the "Extension Opposition").
2. **Request for Statement:** Given that East Point believes that any action by ASCO contrary to the Extension Opposition would "detrimentally affect" the interests of East Point, and as a member of ASCO and pursuant to ASCO articles, East Point hereby requests that ASCO, during its next regularly scheduled board meeting, place on its agenda, discuss and, by motion and vote, issue and distribute a written, public statement of its opposition to any plans inconsistent with the Extension Opposition. For the avoidance of doubt, various Lake Shore Drive extension, landfill and park creation "concepts" for development of Chicago's "Last 4 Miles" of Lake Michigan lakefront, as discussed in the media and by various organizations (e.g., Friends of the Park), shall be deemed objectionable to ASCO members.

Sincerely,

Thomas E. Fraser, President
East Point Condominium Association
